# PERMISSION SLIP

Please excuse \_\_\_\_\_ from the way things  
(YOUR NAME HERE)

have always been done.

Time's up on standard operating procedures.

\_\_\_\_\_ admits he/she doesn't have the  
(YOUR NAME HERE)

answers. So please excuse \_\_\_\_\_ from  
(YOUR NAME HERE)

the expectations that they have any of it figured out.

The solution is out there. But only if you permit

\_\_\_\_\_ to try, and probably fail and then to  
(YOUR NAME HERE)

keep trying. The process won't be neat. Instead it will be

scary, and messy, and well, weird. But that will be

courageous. And awesome. And the start of change.
